

DataBaseManager.Tests.DBTests.  
SelectClearAllUsersTest

DataBaseManager.Tests.DBTests.  
TestAutoIncrement

DataBaseManager.Tests.DBTests.  
UpdateUserTest

DataBaseManager.DB.Clear  
Users

```
graph LR; A[DataBaseManager.Tests.DBTests.SelectClearAllUsersTest] --> D[DataBaseManager.DB.Clear Users]; B[DataBaseManager.Tests.DBTests.TestAutoIncrement] --> D; C[DataBaseManager.Tests.DBTests.UpdateUserTest] --> D;
```

The diagram illustrates a dependency or relationship between three test classes and a single database operation. On the left, three white rectangular boxes are stacked vertically. Each box contains a fully qualified class name followed by a specific test method. Blue arrows originate from the right side of each of these three boxes and point towards a single gray rectangular box on the right. This gray box contains the text 'DataBaseManager.DB.Clear Users', which represents a database operation. The arrows indicate that each of the three test classes depends on or utilizes the 'Clear Users' database operation.
