

DataBaseManager.Tests.DBTests.  
InsertExceptionTest3

DataBaseManager.Tests.DBTests.  
InsertExceptionTest4

DataBaseManager.Tests.DBTests.  
InsertSelectDeleteProductTest

DataBaseManager.DB.Delete  
Product

```
graph LR; A[DataBaseManager.Tests.DBTests.InsertExceptionTest3] --> D[DataBaseManager.DB.Delete Product]; B[DataBaseManager.Tests.DBTests.InsertExceptionTest4] --> D; C[DataBaseManager.Tests.DBTests.InsertSelectDeleteProductTest] --> D;
```

The diagram illustrates a dependency or relationship between three test methods on the left and a single database operation method on the right. Three blue arrows originate from the right side of each test method box and point towards the left side of the 'Delete Product' box. The test methods are 'InsertExceptionTest3', 'InsertExceptionTest4', and 'InsertSelectDeleteProductTest'. The 'Delete Product' method is highlighted with a gray background.
